Why do we need an India SIG?

India needs a SIG due to.

Why the current level of involvement is a Challenge?

The weak participation by Indian stakeholders globally is resulting in,

Negligible Indian presence in global IG strategic decision making processes

Lack of awareness on IG hindering understanding of critical issues.

Issues which are critical to India and emerging nations not taken into consideration during Global public policy and technical standard drafting.

Why it is important that SIG efforts should be located in India?

It is important to hold a SIG in India in order to,

Unique
Curriculum

Avoid high
cost of
International
Schools

Create
Community
Champions

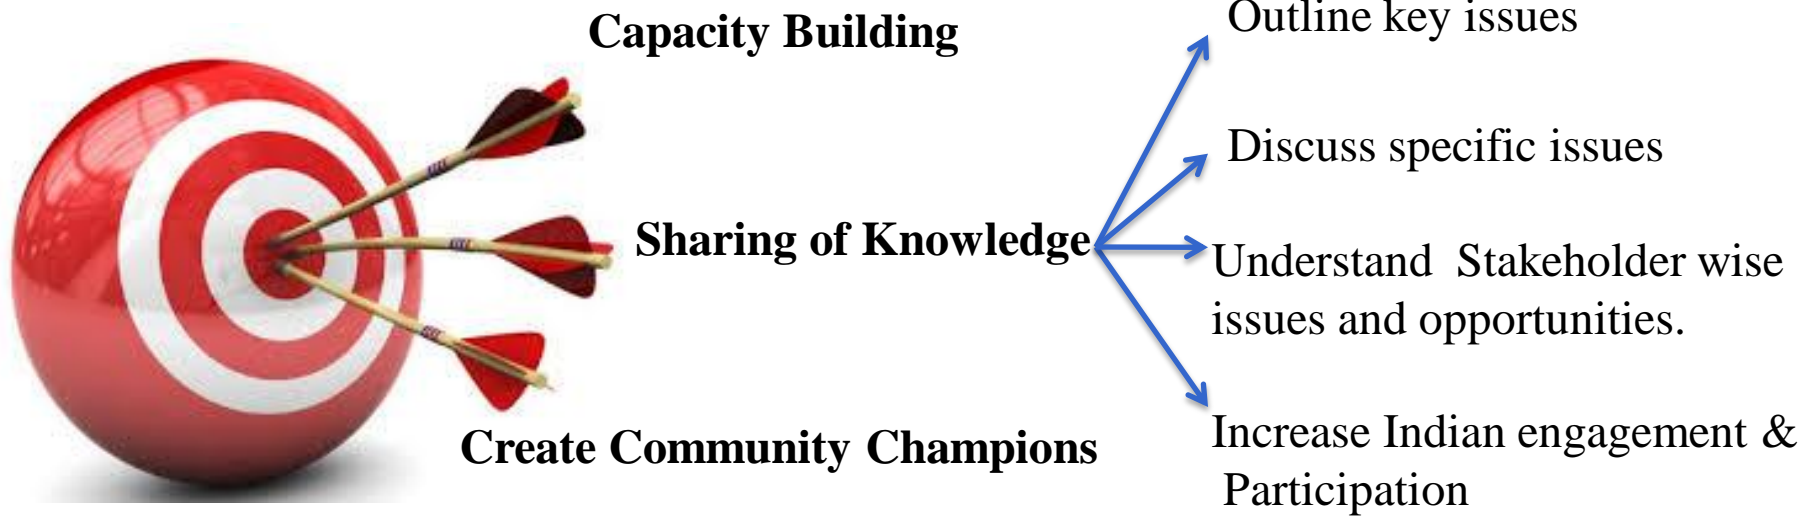

Increase
Community
Awareness

Create Pool
of
Resources

What will the India SIG Do?

The India SIG will help in,

Creating and sharing Training Material with other SIGs

How will the India SIG work?

- ➔ **India SIG would be managed by a Multi stakeholder body.**
- ➔ **Regular level course , similar to the APSIG curriculum, with a few India centric topics.**
- ➔ **Course material would seek support from APSIG.**
- ➔ **Participants from India and neighbouring nations.**
- ➔ **Preferably an annual event, but decide based on response of inSIG 2016.**

The first India SIG would be held in October 2016

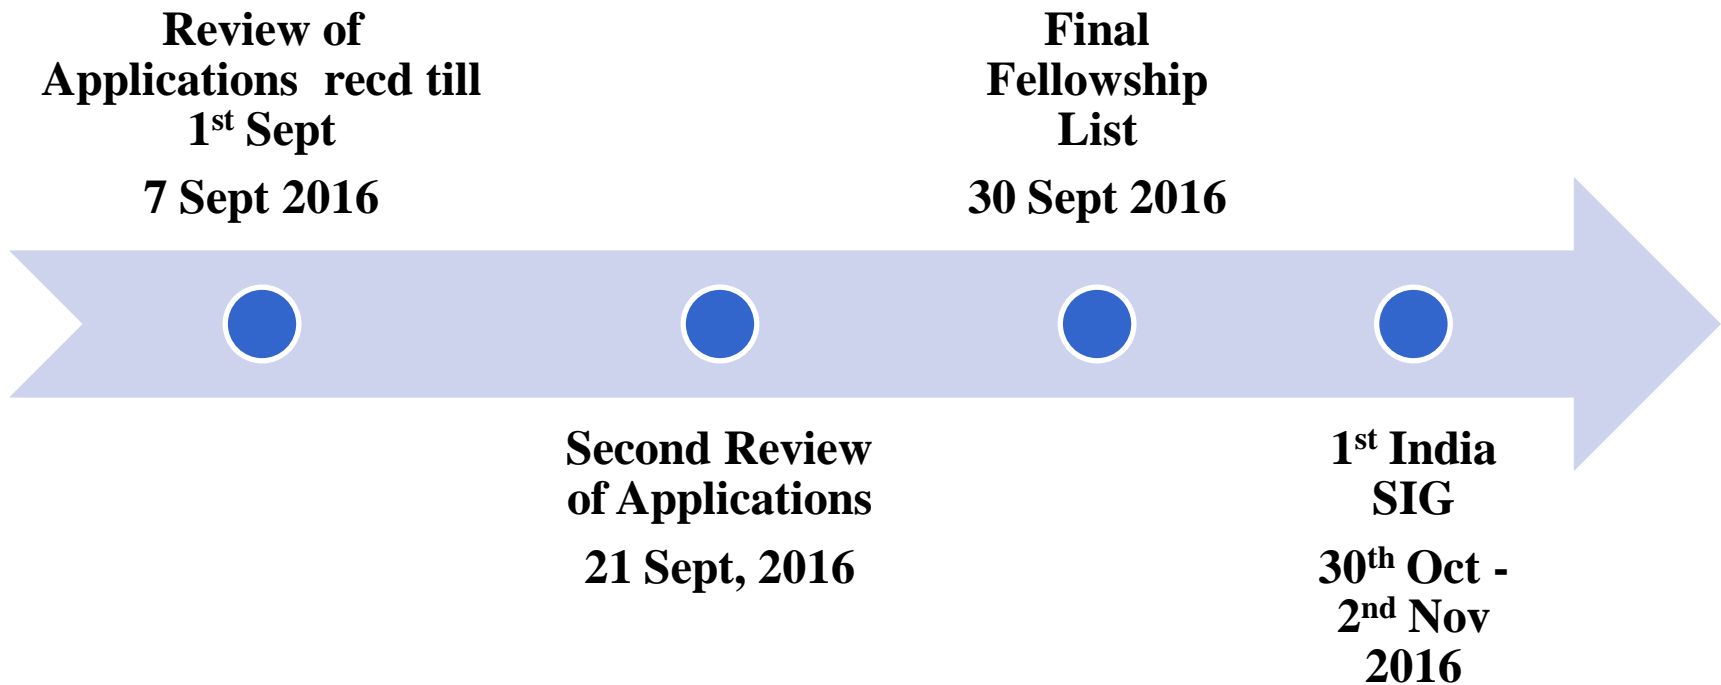

What we have done so far?

For holding the 1st India SIG (inSIG), till now we have,

What do we propose to do next?

For holding the 1st India SIG (ISIG), as the next steps we plan to,

The Way Ahead

Going forward few Points to Ponder Upon...

How to sustain participation of people attending the program?

How to Scale the Event?

How to make it self sustaining?

How to Build Capacity?

How to ensure support to other Regional SIGs?

Thank You.

We request for your feedback.
